

# #ObserveMe

As the Principal of Coldwater Elementary School, I too strive for our students to be successful. Along with this comes the desire for our teachers to be equipped with what they need and have the necessary support to be successful.

I am working on the following goals:

- Effectively communicating the expectations of CES with teachers
- Creating a supportive and collaborative environment at CES
- Keeping students, student learning, and student achievement at the core of my decisions.

Please feel free to provide me with your feedback.

Scan the QR Code below and leave me some feedback on what you observed
