

Welcome! Come on in!

Thank you for stopping by! Feel free to come in and make yourself at home. Here are a few things we want you to know as you come in:

1. We will always greet you with a smile, we're excited you're here!
2. We are busy little bees, but please ask us any questions.
3. We've been working really hard on using learning targets to drive our learning, using targets to self assess short and long term goals, and staying actively engaged.
4. Our teacher has been working really hard on checking that we understood the skill and connecting our learning to our world around us!
5. We know baby steps help us reach bigger goals, and we love watching ourselves grow!

Please scan the QR code and complete the quick survey, we would love to know what you saw.

*** OH! Don't forget about Twitter, we love sharing our learning with social media.
